

Kangaroo Mathematics Competition: Prizes Ceremony

On Tuesday the 22nd of June 2010, the Kangaroo Mathematics competition Prizes ceremony took place in the Conference Room for the fourth consecutive year. It started at 15:15 and around forty students, teachers and parents for both primary and secondary were present.

In the first part of the ceremony, Mr Graeme Scott, our principal of primary opened the ceremony and together with Mr. Willis gave the prizes to the primary participants.

In the second part of the ceremony, Mrs Hoogcarspel, our Deputy MYP secondary gave the prizes to the secondary school participants.

At the end of the ceremony, a small gift of appreciation was given to all the math teachers involved with the Math Department competition for school year 2009-2010, see picture from the right to the left: Mrs Ramirez, Mr. Pekic, Mrs. Lewis and Mrs Zahkna.

I would like to thank Mr Willis for co-organizing the Kangaroo competition.

Least and unfortunately for the last, I have to express my gratitude to my colleague Mrs Jean Lewis for all the support I got the last three years for organizing the Kangaroo math activities and especially the Kangaroo Prizes ceremony. Mrs Lewis is leaving us due to retirement. After serving the math profession for more than 30 years in different continents and educational systems, it is time for new challenges and I am sure that to be a grandmother of two lovely small children will keep her and her husband busy and happy.

Ioannis Andreadis, Subject Area Leader Maths
